

5th International Workshop on Digital Approaches in Cartographic Heritage

Vienna, 22-24 February 2010

Call for Papers

Participants and focus. This Workshop is addressed to **scholars, researchers, map curators, map collectors, administrators, digital industry/market operators, and students** coming from different cultural and educational backgrounds (humanistic, scientific and engineering) whose work is either focused on or affined to cartographic heritage. The Workshop will offer a common ground to colleagues from various disciplines and practice where they can meet, interact and exchange knowledge, experience, plans and ideas on how the digital revolution and modern information and communication technologies in general can or could be used and contribute to cartographic heritage in terms of acquisition, processing visualization and communication of relevant digital data.

The ICA Commission on Digital Technologies in Cartographic Heritage and the Vienna University of Technology are pleased to invite you to contribute to the 5th International Workshop on Digital Approaches in Cartographic Heritage.

Sessions. The following topics will be addressed:

- multidisciplinary dimension of cartographic heritage
- transformation of old maps, globes and cartographic documents in digital form
- comparison of digital methods
- standardisation
- applying digital techniques for analysis and interpretation of cartographic heritage
- map libraries and digital assistant tools for curators and virtual access for costumers
- digital support for the preservation and restoration of cartographic heritage
- use of ICT for dissemination and education of cartographic heritage
- digital improvements of map collections

Proceedings. The presented papers will be published in the proceedings of the Workshop. Some of the papers in a shorter version will be also published in the international web journal on sciences and technologies affined to history of cartography and maps **e-Perimetron** (ISSN 1790-3769, <http://www.e-perimetron.org>) following the journal's editorial policy.

Guidelines for all forms of submission will be available on the workshop website.

Please submit all abstracts and papers via e-mail to cartoheritage@cartography.tuwien.ac.at according to the following deadlines:

Abstract submission: 15 December 2009

Full paper submission: 31 January 2010

5th International Workshop on Digital Approaches in Cartographic Heritage

Vienna, 22-24 February 2010

Call for Papers

The ICA Commission on Digital Technologies in Cartographic Heritage and the Vienna University of Technology are pleased to invite you to contribute to the 5th International Workshop on Digital Approaches in Cartographic Heritage.

Participants and focus. This Workshop is addressed to **scholars, researchers, map curators, map collectors, administrators, digital industry/market operators, and students** coming from different cultural and educational backgrounds (humanistic, scientific and engineering) whose work is either focused on or affined to cartographic heritage (CT). The Workshop will offer a common ground to colleagues from various disciplines and practice where they can meet, interact and exchange knowledge, experience, plans and ideas on how the digital revolution and modern information and communication technologies in general can or could be used and contribute to cartographic heritage in terms of acquisition, processing visualization and communication of relevant digital data.

Sessions. The following topics will be adressed:

- multidisciplinary dimension of CT
- transformation of old maps, globes and cartographic documents in digital form
- comparison of digital methods
- standardisation
- applying digital techniques for analysis and interpretation of CT
- map libraries and digital assistant tools for curators and virtual access for costumers
- digital support for the preservation and restoration of CT
- use of ICT for dissemination and education of CT
- digital improvements of map collections

Proceedings. The presented papers will be published in the proceedings of the Workshop. Some of the papers in a shorter version will be also published in the international web journal on sciences and technologies affined to history of cartography and maps **e-Perimetron** (ISSN 1790-3769, <http://www.e-perimetron.org>) following the journal's editorial policy.

Guidelines for all forms of submission will be available on the workshop website. Please submit all abstracts and papers via e-mail to cartoheritage@cartography.tuwien.ac.at according to the following deadlines:

Abstract submission: 15 December 2009

Full paper submission: 31 January 2010

The Workshop will be held at Vienna University of Technology, Vienna, Austria and is organized by Prof. Dr. Georg Gartner (Vice President of the ICA, georg.gartner@tuwien.ac.at) and Prof. Dr. Evangelos Livieratos (Commission Chair, livier@auth.gr).
